5. Details of services being offered:

a) Discretionary Services

Under these services, the choice as well as the timings of the investment decision rest solely with the Portfolio Manager. The Portfolio Manager shall have the sole and the absolute discretion to invest in respect of the Client's account in any type of security as per the agreement and make such changes in the investments and invest some or all of the Client's account in such a manner and in such a market at it deems fit. However, the final decision rests with the Portfolio Manager. The securities invested/disinvested by the Portfolio Manager for the Clients in the same Strategy may differ from Client to Client. The Portfolio Manager's decision taken in good faith in deployment of the Client's account is absolute and final and cannot be called in question or be open to review at any time during the currency of the agreement or at any time thereafter except on the ground of malafide, fraud, conflict of interest or gross negligence. This right of Portfolio Manager shall be exercised strictly in accordance with the relevant acts, Rules, and Regulations, guidelines and notification in force from time to time.

Based on the Client's profile, overall investment objective and other relevant factors, the Portfolio of the Clients are at present managed under one or more of the following Investment approaches tagged under Equity Strategy:

- i) SRE PE Shield
- ii) SRE Inflection Ideas
- iii) SRE Ignited Ideas
- iv) SRE Small Cap Momentum PMS
- v) SRE Large & Mid Momentum PMS
- vi) SRE Ploutos Fund
- vii) SRE PlantRich PMS
- viii) SRE Finansys Quant Momentum PMS

b) Non-discretionary Services

Under the Non-Discretionary Portfolio Management Services, the portfolio of the Client shall be managed in consultation with the Client. Under this service, the Assets will be managed as per express prior instructions issued by the Client from time to time. The Client will have complete discretion to decide on the investment (Stock Quantity and Price or amount). The Portfolio Manager inter alia manages transaction execution, accounting, recording or corporate benefits, valuation and reporting aspects on behalf of the Client entirely at the Client's risk. The non-discretionary portfolio management services are provided under investment strategy called "**SRE Non-discretionary PMS**"

DIRECT ON-BOARDING OF CLIENTS: The Client has an option to on-board as a direct client without any intermediation of persons engaged in the distribution.

6. Services Offered

(i) **Present investment Objectives and Policies**

The investment objective of SRE as portfolio manager is to maximize the annualized return on the funds placed with SRE through a judicious deployment in capital/money market instruments, mutual fund units or derivatives based on a professional, detailed assessment and evaluation of all relevant macro and micro factors pertaining to the economy and industry.

The investments will be allocated in equity shares, derivatives, mutual funds: equity/ETFs, debts/ETFs, debentures, government securities or all of them as per the discretion of the fund manager.

Types of Securities in which the funds are generally invested:

- (a) Equity and Equity related securities,
- (b) Units, Magnums and other instruments of Mutual Funds;
- (c) Bank Deposits;

However, in addition to the above and subject to SEBI Regulations, the Funds can also be invested in such securities, capital and money market instruments or in fixed income securities or variable securities of any description, by whatever name called including:

- (a) Convertible Stock and Preference Shares of Indian Companies;
- (b) Debentures (Convertible and Non-convertible), Bonds and Secured Premium Notes, Swaps, Futures and Options, Securitized Debt, Structured Products, Pass Through Certificates and Instruments which are quasi-debt instruments, Tax-exempt Bonds of Indian Companies and Corporations;
- (c) Government and Trustee Securities;
- (d) Treasury Bills;
- (e) Commercial Papers, Certificates of Deposit and other similar Money Market instruments
- (f) Tradable or any other warrants, InvIT or other instruments;
- (g) The Portfolio Manager may invest in private equity investment proposals (unlisted companies) considering their attractive fundamentals and possibility of unlocking significant gains in future on listing, subject to applicable regulations;
- (h) Such other instrument(s) offered in private placements, arrangements, treaties, contracts or agreements for facilitating acquisition and/or disposing of investments as the case may be;
- (i) Any other eligible mode of investment within the meaning of the Regulations issued by SEBI and amended thereto from time to time.

However, no investment will be made in badla financing and lending to corporate or any other bodies and such instruments as may be expressly prohibited by SEBI/other regulatory bodies. SRE hereby agrees not to pledge or loan securities without the written permission of the Investor and the leveraging of portfolio shall not be permitted in respect of investment in derivatives. SRE may, subject to authorization by the client in writing, participate in securities lending.

The derivatives positions will be taken for hedge purpose or for portfolio balancing or as pure investment option. However, the total derivative position will not exceed the portfolio size at any time. No speculative positions will be taken. However, if equity markets at any point of time does not provide enough opportunities for investments, full or part of the portfolio will be parked in short term/ long term debt instruments, debt mutual funds, securitized instruments and/or any other instruments permitted by SEBI.

Efforts will be made to invest full portfolio in predominantly equity and equity linked schemes at any point of time. However, depending on the market conditions, the Portfolio Manager may at his discretion change the allocation of weights between debt / liquid / fixed income schemes and equity schemes. Portfolio of each client may differ from that of other client as per the discretion of the Portfolio Manager. The un-invested amounts in any of the client's portfolio may be deployed in liquid schemes, debt-oriented schemes of mutual funds, gilt schemes, bank fixed deposits and other short-term avenues for investment as permitted by SEBI.

SRE shall not borrow funds or securities on behalf of the client. SRE shall not lend securities held on behalf of the clients to a third person except as provided under SEBI regulations.

The policies for investments in associates/ group companies of the Portfolio Manager and the

maximum percentage of such investments therein would be subject to the applicable laws/ regulations/ guidelines. SRE currently does not intend to invest in any of its associate or group companies.

(ii) Investment Approaches:

The portfolio manager manages following strategies of the Discretionary Portfolio of the client.

I) SRE PE Shield

Fund Manager: Mr. Nitesh Chand

- **Investment Objective:** The strategy aims growth in investment amount by following non-aggressive strategy. It seeks to achieve capital appreciation through investments in Indian companies with growth potential. The strategy predominantly invests in companies that tend to grow earnings at a fast pace and are reasonably priced.
- **Description of types of securities:** Listed Equities, ETFs, Mutual Funds.
- **Basis of selection of such types of securities as part of the investment approach:**
A combination of top-down approach and bottom-up approach. The top-down approach is used to identify key macroeconomic and sectoral themes and subsequently help identify stocks that will benefit from the same. The bottom-up approach focuses on the analysis of individual stocks and marginalizes the significance of macroeconomic cycles. A portfolio of approx.30-40 stocks is constructed based on ranks and is rebalanced periodically.
- **Allocation of portfolio across types of securities**
The strategy seeks to invest in equity and equity-related instruments in large-cap, mid-cap and small-cap companies.
- **Benchmark:** S&P NIFTY 50 TRI
- **Indicative tenure or investment horizon:** Long Term
- **Risks associated with the investment approach:**
Equity risk is the financial risk involved in holding equity in a particular investment. Equity risk often refers to equity in companies through the purchase of stocks, and does not commonly refer to the risk in paying into real estate or building equity in properties.
Systematic Risk refers to the risk inherent to the entire market or market segment. Systematic risk, also known as “undiversifiable risk,” “volatility” or “market risk,” affects the overall market, not just a particular stock or industry. This type of risk is both unpredictable and impossible to completely avoid. It cannot be mitigated through diversification, only through hedging or by using the correct asset allocation strategy.
Concentration risk is the potential for a loss in value of an investment portfolio or a financial institution when an individual or group of exposures move together in an unfavourable direction. The implication of concentration risk is that it generates such a significant loss that recovery is unlikely. The portfolio will be liquidated or the institution will face bankruptcy.
Model portfolio risk: Model Portfolio is a concept where the fund manager constructs a portfolio with a certain number of scripts and allocation for each. The same is replicated in terms of scripts and allocation for all future clients. Clients may for certain interim periods have portfolios which are different from the model portfolio i.e., that some stocks may be different or may have a lesser weight compared to the model portfolio. This is a function of many factors like liquidity, organisation level risk practices or other investment decision making considerations.
Mismatch risk occurs when an investor chooses investments that are not suitable for their circumstance and risk tolerance. Investors experience mismatch risk when transactions in which they engage or assets they hold are not aligned with their needs. Mismatch between investment type and investment horizon can be a source of mismatch risk. For example, mismatch risk would exist in a situation where an investor with a short investment horizon (such as one who is near

retirement) invests heavily in small-cap funds. Typically, investors with short investment horizons should focus on less volatile investments.

Execution Risk is that a transaction won't be executed within the range of recent market prices or within the stop order limits that have been set by an investor. Execution risk exists on virtually all financial instruments.

- **Other salient features, if any:** The investment approach is designed to reduce portfolio risk in the initial stages of investment through a dynamic blend of equity and debt. Equity component is gradually infused in the portfolio taking into consideration market valuations as well as the time factor. It intends to reduce concentration risk through diversification at the stock and sector levels.

II) SRE Ignited Ideas

Fund Manager: Mr. Nitesh Chand

- **Investment Objective:** The objective of the strategy is to create wealth for the investors over long term. It aims at generating optimal returns in context with the market volatility.
- **Description of types of securities:** Listed Equities, ETFs, Units of Mutual Funds.
- **Basis of selection of such types of securities as part of the investment approach:**
The strategy invests in large cap companies, mid cap & small cap companies where value and growth is foreseen. Being sector agnostic, the strategy focuses on businesses and invests on the philosophy of B2C, B2B and B2G (Business with Government) set of companies. Our objective is to have minimal churn.
- **Allocation of portfolio across types of securities**
The strategy seeks to invest in a mix of mid and large cap companies making it a flexi-cap portfolio.
- **Benchmark:** S&P BSE500 TRI
- **Indicative tenure or investment horizon:** Long Term
- **Risks associated with the investment approach**
Equity risk is the financial risk involved in holding equity in a particular investment. Equity risk often refers to equity in companies through the purchase of stocks, and does not commonly refer to the risk in paying into real estate or building equity in properties.
Systematic Risk refers to the risk inherent to the entire market or market segment. Systematic risk, also known as “undiversifiable risk,” “volatility” or “market risk,” affects the overall market, not just a particular stock or industry. This type of risk is both unpredictable and impossible to completely avoid. It cannot be mitigated through diversification, only through hedging or by using the correct asset allocation strategy.
Concentration risk is the potential for a loss in value of an investment portfolio or a financial institution when an individual or group of exposures move together in an unfavourable direction. The implication of concentration risk is that it generates such a significant loss that recovery is unlikely. The portfolio will be liquidated or the institution will face bankruptcy.
Mismatch risk occurs when an investor chooses investments that are not suitable for their circumstance and risk tolerance. Investors experience mismatch risk when transactions in which they engage or assets they hold are not aligned with their needs. Mismatch between investment type and investment horizon can be a source of mismatch risk. For example, mismatch risk would exist in a situation where an investor with a short investment horizon (such as one who is near retirement) invests heavily in small-cap funds. Typically, investors with short investment horizons should focus on less volatile investments.

Execution Risk is that a transaction won't be executed within the range of recent market prices or within the stop order limits that have been set by an investor. Execution risk exists on virtually all financial instruments.

- **Other salient features, if any:**

The strategy does not follow a model portfolio and each client portfolio could be different, depending upon the time the money is available to invest.

III) **SRE Inflection Ideas**

Fund Manager: Mr. Sunil Shah

- **Investment Objective:** The objective of the strategy is to create wealth for the investors over long term. It aims at generating optimal returns in context with the market volatility.
- **Description of types of securities:** Listed Equities, ETFs, Units of Mutual Funds, Liquid Bees, Liquid Funds.
- **Basis of selection of such types of securities as part of the investment approach:**

The strategy invests in large cap companies, mid cap & small cap companies where value and growth is foreseen. Being sector agnostic, the strategy focuses on businesses and invests on the philosophy of B2C, B2B and B2G (Business with Government) set of companies. Our objective is to have minimal churn. The investment approach is to identify businesses that are on the threshold of a change and invest in such companies that can benefit from the future change in the business outlook envisaged. Given that it is a bet on the uncertain future, the scheme contains high risk and also that there could be substantial exposure to mid and small cap stocks hence the volatility in stock prices too could be high in comparison to the market. However, if the outlook materializes as is envisaged the possibility of alpha generation too could be high in this investment approach.

- **Allocation of portfolio across types of securities**

The strategy seeks to invest in a mix of mid and large cap companies making it a flexi-cap portfolio.

- **Benchmark:** S&P BSE500 TRI
- **Indicative tenure or investment horizon:** Long Term
- **Risks associated with the investment approach**

- **Other salient features, if any:**

The strategy does not follow a model portfolio and each client portfolio could be different, depending upon the time the money is available to invest.

IV) SRE Small Cap Momentum PMS

Fund Manager: Mr. Nitesh Chand

- **Investment Objective:** The objective of the strategy is to create wealth for the investors by investing in stocks in top sectors based on quarterly results.
- **Description of types of securities:** Listed Equities
- **Basis of selection of such types of securities as part of the investment approach:**
The strategy invests in companies where value and growth is foreseen. Being sector agnostic, the strategy focuses on businesses with high growth and low valuation.
- **Allocation of portfolio across types of securities**
The strategy seeks to invest in a mix of small cap companies making it a small cap portfolio.
- **Benchmark:** S&P BSE500 TRI
- **Indicative tenure or investment horizon:** Medium Term
- **Risks associated with the investment approach**

VII) SRE Ploutos Fund

Fund Manager: Mr. Jinesh Mutha

- **Investment Objective:**
The fund aims to deliver consistent, long-term wealth creation for its clients. By leveraging a disciplined framework, which seeks to generate superior risk-adjusted alpha across market cycles.
- **Description of types of securities:**
Listed Equities
- **Basis of selection of such types of securities as part of the investment approach:**
Focus on businesses undervalued by the market but poised for growth due to identifiable triggers.
Investments in high-quality companies with scalable business models, sustainable profitability, and strong growth prospects.
We are sector agnostic with primarily focus on low valuation stocks.
- **Allocation of portfolio across types of securities**
The strategy seeks to invest in a mix of small, mid & micro-cap companies making it a small-mid cap portfolio, and focuses with a keen eye on new-age industries and emerging sectors, aiming to capitalize on transformative growth stories.
- **Benchmark:** BSE500 TRI
- **Indicative tenure or investment horizon:**
The fund has a investment tenure of 3-5 years.
- **Risks associated with the investment approach**
Equity risk is the financial risk involved in holding equity in a particular investment. Equity risk often refers to equity in companies through the purchase of shares, and does not commonly refer to the risk in investing into real estate.
Systematic Risk refers to the risk inherent to the entire market or market segment. Systematic risk, also known as “undiversifiable risk,” “volatility” or “market risk,” affects the overall market, not just a particular stock or industry. This type of risk is both unpredictable and impossible to completely avoid. It cannot be mitigated through diversification, only through hedging or by using the correct asset allocation strategy.
Concentration risk refers to the potential for a significant loss in the value of an investment portfolio or financial institution when a single exposure or a group of exposures moves unfavourably in the same direction. This risk can result in losses so substantial that recovery becomes unlikely, potentially leading to the liquidation of the portfolio.
Mismatch risk occurs when an investor chooses investments that are not suitable for their circumstance and risk tolerance. Investors experience mismatch risk when transactions in which they engage or assets they hold are not aligned with their needs. Mismatch between investment type and investment horizon can be a source of mismatch risk. Typically, investors with short investment horizons should focus on less volatile investments.
Execution Risk is that a transaction won't be executed within the range of recent market prices or within the stop order limits that have been set by an investor. Execution risk exists on virtually all financial instruments.

- **Other salient features, if any:**
The strategy does not follow fixed model portfolio and each client portfolio could be different, depending upon the time the money is available to invest.

VII) SRE PlantRich PMS

Fund Manager: Meet Parmar

- **Investment Objective:** The objective of the strategy is to create wealth for the investors by investing in mega trends and momentum stocks .
- **Description of types of securities:** Listed Equities
- **Basis of selection of such types of securities as part of the investment approach:**
- The strategy invests in companies where value and growth are foreseen. Being sector-agnostic, the plan focuses on businesses with high growth and low valuations.
- **Allocation of portfolio across types of securities**
40% large cap, 30% mid cap, 30% small cap (all cap approach)
- **Benchmark:** BSE500 TRI
- **Indicative tenure or investment horizon:** Medium Term/Long Term.
- **Risks associated with the investment approach**

Equity risk is the financial risk involved in holding equity in a particular investment. Equity risk often refers to equity in companies through the purchase of stocks, and does not commonly refer to the risk in paying into real estate or building equity in properties.

Systematic Risk refers to the risk inherent to the entire market or market segment. Systematic risk, also known as “undiversifiable risk,” “volatility” or “market risk,” affects the overall market, not just a particular stock or industry. This type of risk is both unpredictable and impossible to completely avoid. It cannot be mitigated through diversification, only through hedging or by using the correct asset allocation strategy.

Concentration risk is the potential for a loss in value of an investment portfolio or a financial institution when an individual or group of exposures move together in an unfavourable direction. The implication of concentration risk is that it generates such a significant loss that recovery is unlikely. The portfolio will be liquidated or the institution will face bankruptcy.

Mismatch risk occurs when an investor chooses investments that are not suitable for their circumstance and risk tolerance. Investors experience mismatch risk when transactions in which they engage or assets they hold are not aligned with their needs. Mismatch between investment type and investment horizon can be a source of mismatch risk. For example, mismatch risk would exist in a situation where an investor with a short investment horizon (such as one who is near retirement) invests heavily in small-cap funds. Typically, investors with short investment horizons should focus on less volatile investments.

Execution Risk is that a transaction won't be executed within the range of recent market prices or within the stop order limits that have been set by an investor. Execution risk exists on virtually all financial instruments.

- **Other salient features, if any:**
The strategy does not follow a model portfolio and each client portfolio could be different, depending upon the time the money is available to invest.

VIII) SRE Finansys Quant Momentum PMS

Fund Manager: Smita Shetty

- **Investment Objective:** The objective of the strategy is to generate capital appreciation over medium to long term by capitalizing on the continuance of an existing market trend and momentum.
- **Description of types of securities:** Primarily invest in equity and equity-related instruments of companies listed on the National Stock Exchange (NSE) and the Bombay Stock Exchange (BSE) in India. The portfolio's entire or partial funds may also be allocated to units of liquid and ultra-short-term debt schemes, Exchange Traded Funds (ETFs) linked to equity, commodities, or U.S. equity indices. From time to time, a portion of the portfolio may be retained in cash or cash equivalents for liquidity management purposes or to take advantage of future investment opportunities
- **Basis of selection of such types of securities as part of the investment approach:**
- The strategy uses quantitative factors, objective, unbiased stock picking based on strong price momentum and exits when momentum reverses. A portfolio of approx. 10 to 30 stocks is constructed based on ranks and is rebalanced periodically (monthly and or quarterly)
- **Allocation of portfolio across types of securities:** The Portfolio may have an allocation of **0–100% in listed equity and equity-related instruments** of Indian companies. At times, **0–100% of the portfolio may be invested** in liquid or ultra-short-term funds, liquid ETFs, commodity ETFs, money market instruments, or in direct plans of mutual funds, or may **hold cash for liquidity management purposes**. The strategy is **market-cap agnostic**, though it typically maintains a **higher allocation to small and mid-cap companies**.
- **Benchmark:** S&P BSE 500 Total Return Index (TRI)
- **Indicative tenure or investment horizon:** Medium to Long Term. 3-5 years for the portfolio manager to be able to maximize strategy performance
- **Risks associated with the investment approach:**
- **Equity risk** is the financial risk involved in holding equity in a particular investment. Equity risk often refers to equity in companies through the purchase of stocks and does not commonly refer to the risk in paying into real estate or building equity in properties.
- **Systematic Risk** refers to the risk inherent to the entire market or market segment. Systematic risk, also known as “undiversifiable risk,” “volatility” or “market risk,” affects the overall market, not just a particular stock or industry. This type of risk is both unpredictable and impossible to completely avoid. It cannot be mitigated through diversification, only through hedging or by using the correct asset allocation strategy.
- **Concentration risk** is the potential for a loss in value of an investment portfolio or a financial institution when an individual or group of exposures move together in an unfavourable direction. The implication of concentration risk is that it generates such a significant loss that recovery is unlikely. The portfolio will be liquidated, or the institution will face bankruptcy.
- **Model portfolio risk:** Model Portfolio is a concept where the fund manager constructs a portfolio with a certain number of scripts and allocation for each. The same is replicated in terms of scripts and allocation for all future clients. Clients may for certain interim periods have portfolios which are different from the model portfolio i.e., that some stocks may be different or may have a lesser weight compared to the model portfolio. This is a function of many factors like liquidity, organisation level risk practices or other investment decision making considerations.

- **Mismatch risk** occurs when an investor chooses investments that are not suitable for their circumstance and risk tolerance. Investors experience mismatch risk when transactions in which they engage or assets they hold are not aligned with their needs. Mismatch between investment type and investment horizon can be a source of mismatch risk. For example, mismatch risk would exist in a situation where an investor with a short investment horizon (such as one who is near retirement) invests heavily in small-cap funds. Typically, investors with short investment horizons should focus on less volatile investments.
- **Execution Risk** is that a transaction won't be executed within the range of recent market prices or within the stop order limits that have been set by an investor. Execution risk exists on virtually all financial instruments.
- **Other salient features, if any:** The investment approach is designed to reduce portfolio risk by exiting stocks using stop losses and moving to cash. It intends to reduce concentration risk through diversification across stocks.

7. Details of penalties, pending litigation or proceedings, findings of inspection or investigations, action taken or initiated by any regulatory authority:

1. All cases of penalties imposed by the Board or the directions issued by the Board under the Act or Regulations made there under relating to Portfolio Management Services.

None.

2. The nature of the penalty/direction.

None.

3. Penalties imposed for any economic offence and/or for violation of any securities laws relating to Portfolio Management Services.

None

4. Any pending material litigation/legal proceedings against the Portfolio Manager/key personnel with separate disclosure regarding pending criminal cases, if any.

None

5. Any deficiency in the systems and operations of the Portfolio Manager observed by the Board or any regulatory agency in relation to Portfolio Management Services for which action may have been taken or initiated.

None

6. Any enquiry/adjudication proceedings initiated by the Board against the Portfolio Manager or its directors, principal officer or employee or any person directly or indirectly connected with the Portfolio Manager or its directors, principal officer or employee, under the Act or Regulations made thereunder relating to Portfolio Management Services.

None

8. Risk Factors:

Investment in securities is subject to market risks and there is no assurance or guarantee that the objective of the investments will be achieved.

Past performance of the Portfolio Manager does not indicate the future performance. There are no guaranteed returns through these investments.

The performance of the equity investments may be adversely affected by the performance of the individual companies, changes in the market place and credit rankings and industry specific and macro-economic factors.

The investments in debt and other fixed income securities may be subject to interest rate risk, liquidity risk, credit risk and reinvestment risk.

Liquidity in debt and fixed income investments may be affected by trading volumes, settlement periods and transfer procedures

Industry specific stocks may be subject to volatility, high valuations, obsolescence and low liquidity.

The market for derivatives and futures and options is relatively new. These are highly leveraged instruments and require a high degree of skill, diligence and expertise. Small price movements in the underlying security may have a large impact on the value.

Appreciation in any portfolio can be restricted in the event of a high asset allocation to cash, when stock appreciates. The performance may also be affected due to any other asset allocation factors.

Sector specific investments may be subject to the risk of concentration or non-diversification risk. If the sector(s), for any reason, fail(s) to perform, the portfolio value will be adversely affected.

Investors are not being offered any guaranteed or assured return either of Principal or appreciation on the portfolio.

The liquidity of portfolio investments is inherently restricted by trading volumes in the securities in which it invests.

The Portfolio Manager may, considering the overall level of risk of the portfolio, invest in lower rated/unrated securities offering higher yield. This may increase the risk of the portfolio. Such investments shall be subject to the scope of investments as laid down in the Agreement.

The Portfolio Manager may, participate in securities lending as may be permitted by SEBI from time to time. The Portfolio Manager may not be able to sell securities which are lent out leading to temporary illiquidity. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the Approved Intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, or inadequacy of the collateral, the inability of the Approved Intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.

9. Client Representation:

<i>Categories of clients</i>	<i>No. of Clients</i>	<i>Funds Managed (Rs. Cr.):</i>
Discretionary (Active clients as on 31 st March, 2024)	92	109.63
Non-Discretionary (Active clients as on 31 st March, 2024)	NIL	NIL

10. Disclosure in respect of transactions with related parties:

A) The Portfolio Manager is registered with Securities and Exchange Board of India for providing various services namely:

1. Securities Broking as member of Bombay Stock Exchange Limited (BSE) and National Stock Exchange of India Limited (NSE).
2. Depository Services as Depository Participant of Central Depository Services (India) Ltd. (CDSL).
3. Portfolio Management Services as Portfolio Managers registered under the SEBI (Portfolio Managers) Regulations 1993.
4. Research Analyst.
5. Association of Mutual Funds of India (AMFI) registered Distributor of Mutual Fund Schemes and other financial products.

The Portfolio Managers shall avail the aforesaid services for consideration, in managing the Portfolio of the Clients.

B) There may be clients for PMS who may be directly related to one or more Directors or Key Personnel of the Portfolio Managers.

C) There are no group companies or associates of Portfolio Manager, as per definition given by ROC.

13. Audit Observations

There are no audit observations by Statutory Auditor pertaining to PMS for the preceding three financial years.

14. Nature of expenses to be borne by the client:

The following are indicative types of costs and expenses for clients availing the Portfolio Management services. The exact basis of charge relating to each of the following services shall be annexed to the Portfolio Management Agreement and the agreements in respect of each of the services availed at the time of execution of such agreements. The below mentioned charges and expenses shall be directly debited to clients' account as and when the same becomes due for payment.

- Management Fees:** Management fees related to the Portfolio management services offered to clients. The fee may be a fixed charge or a percentage of the quantum of funds managed (not exceeding 2.5% p.a.) and may be return based or a combination of any of these.
- Custodian Fees:** The charges relating to opening and operation of dematerialized and Bank accounts, custody and transfer charges for shares, bonds and units, dematerialization, re-materialization and other charges in connection with the operation and management of the depository and bank accounts.
- Registrar and Transfer Agent Fees:** Charges payable to registrars and transfer agents in

connection with effecting transfer of securities and bonds including stamp charges, cost of affidavits, notary charges, postage, stamp and courier charges.

- d) **Brokerage and transaction costs:** The brokerage charges and other charges like service charge, stamp duty, transaction costs, turnover tax, exit and entry loads on the purchase and sale of shares, stocks, bonds, debt, deposits, units and other financial instruments. It may be noted that the Portfolio Manager is registered as a Stock Broker (with BSE, NSE etc.), a Depository Participant (of the CDSL) and a Portfolio Manager (with SEBI). The Portfolio Manager shall avail of the services of securities broking, depository and distribution of financial products including mutual funds, IPOs etc., in managing the portfolio of the clients. The client will bear the cost, if any, of these services.
- e) **Certification and professional charges:** Charges payable for outsourced professional services like accounting, taxation and legal services, notarizations etc. for certifications, attestations required by bankers or regulatory authorities.
- f) **Incidental Expenses:** Charges in connection with the courier expenses, stamp duty, Goods & Services Tax, statutory levies, postal, telegraphic, opening and operation of bank accounts etc.

Investors may note that, the fees/ expenses that may be charged to Clients mentioned below are indicative only. The same will vary depending upon the exact nature of the services to be provided to investors.

6	Out of Pocket Expenses (viz charges for CA certificate, Stamp Paper Costs, consultant fee, courier charges, etc.)	At Actuals
7	Exit Load	In the 1st year of investment: 1% of the amount redeemed

15.Taxation:

a) General

In view of the individual nature of tax consequences, client is advised to consult his/her tax advisor with respect to the specific tax consequences to him/her for availing of Portfolio Management Services. The Portfolio Manager shall not be responsible for assisting in or completing the fulfillment of the Client's tax obligations. Tax implications mentioned herein are effective as on the date of issue of this document and may change due to modifications in existing legislation.

b) Tax Deduction at Source

Presently, tax is withheld at source for non-residents. If any tax is required to be withheld on account of any legislation, the Portfolio Manager shall be obliged to act in accordance with the regulatory requirements in this regard.

c) Advance tax installment obligations

It shall be the client's responsibility to meet the obligations on account of advance tax installments payable on the due dates under the Income Tax Act, 1961.

d) Capital Gains

Investments held for 12 months or more than 12 months may be classified as long term capital assets. Investments held for less than 12 months may be classified as short term capital assets. Tax liability or exemption would be as per the provisions of the Income Tax Act, 1961. Currently, long term capital gains of more than Rs.1 lakh on the sale of equity shares or equity-oriented units of a mutual fund attract a long term capital gains tax of 10% (plus applicable cess). Short term capital gains arising from the transfer of equity shares in a company or a unit of an equity oriented mutual fund will be charged to tax @15% plus applicable surcharges and education cess under section 111A of the Income Tax Act, 1961, provided such transactions have been subject to Securities Transaction Tax (STT). The capital gains will be payable at the normal tax slabs as applicable for different entities from time to time for the transactions not routed through stock exchanges and on which STT has not been paid.

e) Dividend Income

Dividend income on equity shares and mutual funds is liable for tax in the hands of the investors from F.Y. 2020-2021

f) Income from Business or Profession

In case gains are treated as income from business or profession, the same is taxable at normal rates prevailing from time to time.

16.Accounting Policies:

The following Accounting policies will be applied for the portfolio investments of clients:

- a. Investments in Equities, Mutual Funds and Debt instruments will be valued at the closing market prices of the exchanges (BSE or NSE as the case may be) or the Repurchase Net Asset Value declared for the relevant scheme on the date of the report or any cut-off date or the market value of the debt instrument at the cut-off date. Alternatively, the last available prices on the exchange or the most recent NAV will be reckoned.
- b. Realized gains/losses will be calculated by applying the first in-first out (FIFO) principle. The Portfolio Manager and the client can adopt any specific norms or methodology for valuation of investment or accounting the same as may be mutually agreed between them on a case specific basis.
- c. For derivatives and futures & options, unrealized gains & losses will be calculated by marking to market the open positions. The guidelines issued by Institute of Chartered Accountants of India from time to time will also be considered for valuing the derivative instruments.

- d. Unrealized gains/losses are the differences between the current market values/NAV and the historical cost of the securities.
- e. Dividend income earned by the Portfolio shall be recognized, not on the date the dividend is declared, but on the date the share is quoted on an ex-dividend basis. For investments, which are not quoted on the stock exchange, dividend income would be recognized on the ex-dividend date or record date.
- f. In respect of all interest-bearing investments, income shall be accrued on a day-to-day basis as it is earned. Therefore, when such investments are purchased, interest paid for the period from the last interest due date up to the date of purchase should not be treated as a cost of purchase but shall be debited to Interest Recoverable Account.

Similarly, interest received at the time of sale for the period from the last interest due date up to the date of sale must not be treated as an addition to sale value but shall be credited to Interest Recoverable Account.

Transactions for purchase or sale of investments shall be recognized as of the trade date and not as of the settlement date, so that the effect of all investments traded during a financial year are recorded and reflected in the financial statements for that year. Where investment transactions take place outside the stock market, for example, acquisition through private placement or purchases or sales through private treaty, the transaction would be recorded, in the event of a purchase, as of the date on which the portfolio obtains an enforceable obligation to pay the price or, in the event of a sale, when the portfolio obtains an enforceable right to collect the proceeds of sale or an enforceable obligation to deliver the instruments sold.

All Income will be accounted on accrual or receipt basis, whichever is earlier.

All expenses will be accounted on due or payment basis, whichever is earlier.

- g. Securities Transaction Tax (STT) is recognized on the trade day when the securities are accounted for on which such STT is levied.
- h. Bonus Share, to which the portfolio becomes entitled, shall be recognized only when the original shares on which the bonus entitlement accrues are traded on the stock exchange on an ex-bonus basis. Similarly, right entitlements shall be recognized only when the original shares on which the right entitlement accrues are traded on the stock exchange on an ex-right basis.
- i. The Cost of investments acquired or purchased shall include grossed-up brokerage, stamp charges and any charge customarily included in the broker's note. In respect of privately placed debt instruments, any front-end discount offered may be reduced from the cost of the investment. The investor may contact the customer services official of the Portfolio Manager for the purpose of clarifying or elaborating on any of the above policy issues.

17. Investors Services

Details of the Investor Relations Officer

Name: Mr. Sidhant R. Prabhu

Address: 2nd Floor, Cama Building,
Dalal Street, Fort,
Mumbai 400 001.

Tel. No: 022-61937408

CERTIFICATE

To
The Board of Directors,
Sykes & Ray Equities (India) Ltd.
3rd Floor,
Cama Building,
Dalal Street,
Fort,
Mumbai-400001.

You have requested us to provide a certificate on the Disclosure document for Portfolio Management services ("the Disclosure Document") of Sykes & Ray Equities (India) Ltd ("the Company"). We understand that the disclosure document is required to be submitted to the Securities and Exchange Board of India ("the SEBI").

1. The Disclosure Document and compliance with the Securities and Exchange Board of India (Portfolio Managers) Regulations, 2020 ("the SEBI Regulation") and the Guidelines issued by SEBI dated February 13, 2020 is the responsibility of the management of the company. Our responsibility is to report in accordance with the Guidance note on Audit Reports and Certificates for special purposes issued by the Institute of Chartered Accountants of India. Further, our scope of work did not involve us performing audit tests for the purpose of expressing an opinion on the fairness or accuracy of any of the financial information or the financial statement taken as a whole. We have not performed an audit, the objective of which would be the expression of an opinion on the financial statement, specified elements, accounts or items thereof, for the purpose of this certificate. Accordingly, we do not express such opinion.

We have examined the Disclosure Document for Portfolio Management Services prepared in accordance with Regulation 22 of SEBI (Portfolio Managers) Regulations, 2020 by Sykes & Ray Equities (India) Ltd., (Portfolio Manager – Registration No. INP000005795) having its office at 3rd Floor, Cama Building, Dalal Street, Fort, Mumbai-400001.

Based on our examination of Disclosure Document, audited annual accounts of Sykes & Ray Equities (India) Ltd., and other financial records and information furnished by the Management, we certify that the Disclosure Document for Portfolio Management Services are true, fair and adequate to enable the investor to take a well informed decision.

2. In respect of the information given in the Disclosure document, we state that:
- The list of persons classified as Associates or group companies and list of related parties are relied upon as provided by the company.
 - The Promoters and director's qualification, experience, ownership details are as declared by them and have been accepted without further verification.
 - We have relied on the representations given by the management of the company about the penalties or litigations against the Portfolio Manager mentioned in the Disclosure document.
 - We have relied on the representation made by the management regarding the Assets under management of Rs. 88.05 Crore as on 31st March, 2024.
- 3 Read with above and on the basis of our examination of the books of accounts, records, statements produced before us and to the best of our knowledge and according to the information, explanations and representations given to us, we certify that the disclosure made in the Disclosure Document dated 23rd May, 2024 are true and fair in accordance with the disclosure requirements laid down in Regulation 22 read with Schedule V to the SEBI Regulations to enable the investor to take a well informed decision.
- A management certified copy of the disclosure document is enclosed herewith.

This certificate has been issued for sole purpose of submitting to the Securities and Exchange Board of India and should not be used or referred to for any other purpose without our prior written consent.
